**William Anderson & Sons Ltd.**  
**Integrity In Print since 1865**

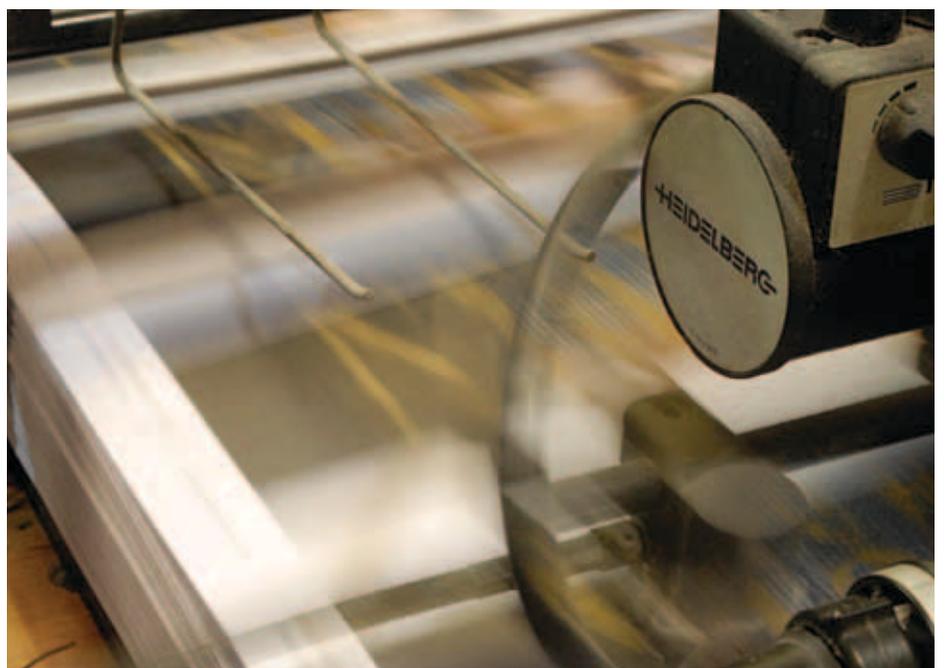

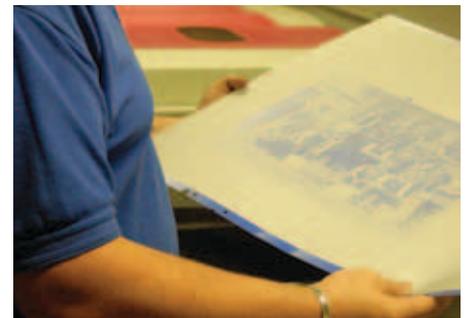

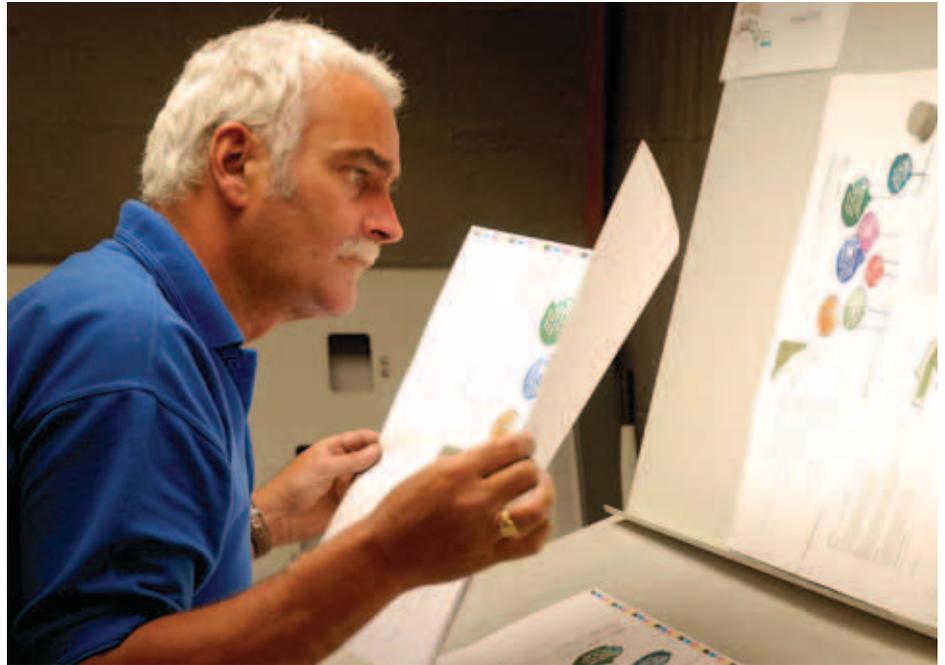

'Integrity in Print' may sound a little old fashioned to some, but we don't mind. It's an ethos that's kept our customers coming back time and again since William Anderson & Sons was first founded in 1865. Throughout our 140+ year history we've always approached each project by considering our clients specific requirements and taking it from there.

Over the years our personal service has set us apart as much as our dedication to consistently great results. Our clients range from design and advertising agencies to commercial businesses, large and small. With each project, we begin by talking, face to face whenever possible.

We find by forming strong and trusting relationships that we can deliver on time and on budget and often add that little bit extra to improve the quality of your project.

Our highly experienced team boasts a diverse range of skills ranging from the traditional to the cutting edge. Unlike many of our competitors, we've maintained a unique balance of the latest technology and age old finishing, restoration and binding techniques.

We offer a host of printing and design services from the simplest single colour business card or leaflet to bespoke boxes, annual reports and unique hand bound books. We can offer something at any stage of a project's life-cycle. To us, it's so much more than just ink on paper. Look through our services to see exactly what makes us tick.

---

### Pre-Press

As well as the latest pre-press and proofing facilities you'll also find we have a full service design department adept at creating unique designs from scratch or enhancing your existing ideas.

Our in house design team can work directly with you to bring your ideas to life and due to our unique mix of services we can also advise on how to get the most from your design once it goes to print.

- Graphic design
- High resolution scanning
- Image manipulation and illustration
- Typesetting
- Film outputting from disk
- High quality colour proofing

### Restoration & archiving

Our restoration experts can painstakingly restore a range of documents to their former glory whilst retaining their integrity.

Marrying age old techniques with cutting edge technology, we offer digitalisation and archiving for documents and books. These electronic scans can be provided in any digital format, allowing for quick and easy access to information without needing the original manuscript. This scanning is often done when documents or books are being repaired, but can also be commissioned separately.

Once scanned, we can also produce print runs of out of print or limited edition books.

- Historical records
- Minute books
- Registration books
- Bibles and religious manuscripts
- Rare books
- Archiving to CD or online databases

### Print

There's not a lot we can't print and no job is ever 'standard' to our team. This is why we'll always talk over all the options to get you the best possible result. Most of our projects start by sitting down and discussing the possibilities with regard to colours, papers, formats and special finishes.

- Corporate Stationery
- Leaflets, single or folded
- Brochures & booklets
- Catalogues and annual reports
- Books (cloth and leather bound)
- Folders with or without pockets
- Polyprop products
- Large format Posters and POS materials
- Bespoke Envelopes and packaging
- Self adhesive and gummed labels

### Fulfillment

Once your project is completed, we can fulfil it too. After all, what use is a great print job if no one gets to see it? We can collate several printed pieces and prepare them for mailing in your choice of envelope, sleeve or bespoke mailer.

By using AFD Mailsort Software you see the benefits across the board. We can generate labels and reports for Royal Mailsort 1400 in postal classes 1, 2 and 3. This allows you to make saving through Royal Mail "Mailsort" discount programmes. We can also arrange multiple mail drops and help you cut postage costs in the process.

We can also hold printed materials on site for distribution as and when required.

### Finishing

Sometimes the printed page is just the beginning of the process. We offer a vast range of folding, lamination, binding and finishing options for you to choose from, both functional and decorative. Don't worry if you're not sure which is right for your project. We're more than happy to take you through the options in person.

- Lamination, Embossing & Perforating
- Foil blocking
- Special finishes
- Drilling, Die Cutting or Cutting to shape
- Cutting, Folding and Creasing
- Wirestitching
- Collating and Numbering
- Shrink Wrapping
