

Case Study

Robert Heindel

We were excited to be asked to work on the design and production of this limited edition catalogue for the arts promotion agency Angela Petrie Associates.

These case-bound books featured our high resolution scans of the original artwork for clients belonging to the Robert Heindel exhibition and sale. Appealing to such a knowledgeable market demanded a high level of detail.

We decided on a 250mm by 325mm landscape format, featuring four page cloth over board with a subtle blind emboss and luxurious 170gsm silk paper. Each catalogue was hand finished, stored and delivered as requested by the client.
